THE LAUNDRY AND CATERING EQUIPMENT SPECIALISTS

Dalow Laundry and Catering Services CC was established in 2002 as an independent company to provide innovative solutions to the most demanding, most intensive users of laundry and Food service equipment. We are proud to be the preferred agents and distributors for Electrolux Laundry Systems, agents and distributors for Zanussi Professional Food Service Solutions (a division of Electrolux) and sole agent and distributor for Lavatec Laundry Technology.

With a combined experience of more than 60 years, Dave, Lorraine, Wayne and Darren Munn are well equipped with a wealth of experience to guide and advise you in all aspects in completing any project from the design and project layout to the correct machine selection and the usage thereof. As the only company in Southern Africa to have undergone factory sales and technical training in our French factory, you are assured of receiving the best possible response times and services carried out to the highest standard.

Dalow has two branches in South Africa, Durban and Johannesburg. We also have accredited service agents located in Cape Town and Nelspruit. We also supply industrial Laundry and catering equipment and solutions including technical visits and installations in Tanzania, Zanzibar, Seychelles, Zambia, Angola, Namibia and many more surround countries.

Through our extensive range of products, you as an operator can have the professional laundry or kitchen that your company deserves. Call us today for all your sales, repairs, spare parts, installations and project planning.

WEBPAGE: www.dalow.co.za

With a comprehensive range of equipment including washer extractors, dryers and Finishing equipment, Electrolux Laundry Systems tailors solutions to the specific Needs of individual businesses – everything from the laundries of apartment houses, Hotels and health care institutions to commercial laundry operations and Coin-operated launderettes.

We have approximately 1280 employees located at three manufacturing entities in France, Sweden and Thailand and 19 national sales companies around the world. A Network of 150 importers also serves the global customer base. The headquarters is located in Ljungby, Sweden.

Zanussi Professional aims to give a better and more creative working environment to millions of chefs worldwide. The brand offers a range of over 3000 dedicated products for food preparation, cooking, Ventilation, refrigeration and dishwashing. The complete Zanussi Professional range is designed to make life easier, food tastier and cleaning up quicker, whilst also helping to protect the environment. Zanussi Professional is a unique reference point to help the customer create his/her perfect kitchen, enabling Italian gastronomic culture to be interpreted at its best around the world.

Known as the longest lasting top loader, Maytag top-load washers last longer than other competitive brands, thanks to their simple design which reduces wear. Our new front load high speed washers use up to 60% less utilities and have 3 times the extraction. Easy operation and low maintenance costs are trade marks of Maytag machinery. With our new direct drive system, variable load settings and offering twice as many cycles, we are definitely ahead of the field.

Maytag Super Capacity Dryers are the perfect match for our washers, delivering a powerful 220cfm diagonal airflow with a choice of fabric care cycles. With 4 x roller support and Maytag's new turbovent technology we not only duct up to 3 times further than the competition, but our dryers are built with twice as much support and dry faster.

LAGOON WET CLEANING

The first and only professional fabric care wetcleaning system approved by Woolmark as the ideal alternative for the care of delicate garments.

The Wool programme in the Electrolux Wet-Cleaning System Lagoon™ has been approved exclusively by the Woolmark Company, the world's leading wool fibre textile authority. Lagoon™ is the first and only such professional wet-cleaning system approved by the Woolmark Company for cleaning wool garments labelled as "dry-clean only".

The Woolmark endorsement can only be used in connection with the machines manufactured by Electrolux Professional and tested according to the approved Lagoon™ cleaning system specifications. The endorsement will only apply when the operator has been trained in the use of the machines and complies with the operation and maintenance as set out in the Lagoon™- Woolmark instructions manual.
